THE KARIBAN ORGANIC Coleccion

CERTIFIED ORGANIC COTTON... BECAUSE WE CARE ABOUT OUR PLANET

Ecocert Greenlife has certified the entire KARIBAN ORGANIC collection, attesting that organic cotton was used to produce it. OCS (100% organic cotton clothing) and OCS Blended (clothes made from organic cotton and another material): two very important logos. They guarantee that the cotton used was produced without pesticides and chemicals, with significantly less water than classic cotton, with respect for biodiversity and under decent working conditions for the growers. These two logos also allow the people who (will) wear this collection to contribute to a good cause, on their own personal level, namely to respect our planet.

NO LABEL... BECAUSE THIS IS YOUR BRAND

A collection with no label at neckline. So you can relabel these clothes and personalise them as much as you want. All our designers did was to add an off-centre size tag (very discreet, we promise), giving you all the space you need to relabel your apparel.

BEAUTIFULLY CUT... BECAUSE THAT IS WHAT KARIBAN DELIVERS

In keeping with its style, Kariban has created a slim-fit collection (just what you need), that flatters every body shape. The beautiful detailing and finish of the outer and inner layers only make the finished product look even nicer, enhancing your message and contributing to the high-quality profile of your brand.

T-Shirts NO LABEL

The short sleeve t-shirt is our most popular product, so why
choose just one? The Kariban organic cotton T-shirts have
a grammage of 155 g/m², meaning you can wear them in all
seasons. They come in 11 colours ranging from plain to marl
and in various models, and will look good in any locker room.

Models featured:

K371 (men - S>3XL) p.20 / K396 (ladies - XS>XXL) p.21

We like the quality finish: the side slits, the rib knit cuffs and the matching twill braided neck.

Polo shirts

NO LABEL

The real two-tone polo shirt in 3 key points: 220 g/m² in a piqué knit, that is both soft and resistant. Matching taped neck and taped side slits to add a nice finishing touch to this elegant polo shirt. A slightly slim fit so it hangs perfectly.

French Terry sweatshirts

NO LABEL

PLAIN COLOUR / TWO-TONE

The crew neck of this shirt is like a chameleon, changing from plain colour to two-tone, depending on the mood. We like its raglan sleeves and the quality finish of its neckline, as well as the twill taped neck and the decorative V-shape flatlock seams. A shirt that works well with any style: preppy with a shirt, streetwear with a t-shirt... Plain colour model available in men's, ladies' and kids' sizes. Two tone model available in a men's or ladies' version.

French Terry is a nice alternative to fleece. This sweatshirt feels lighter and more breathable because of the inner knitted terry layer. Other than that, it looks exactly the same as any other sweatshirt. The smooth fabric is easy to print on.

Choose a slim-fit sweatshirt or buy a larger size for a looser fit. The fit was designed with great care to ensure it falls perfectly regardless of the effect you want to achieve.

K480 plain colours (men - S>3XL)
9 colours. p.22

K492 two-tone (ladies - XS>XXL)
4 colours. p.21

This crew neck sweatshirt is super comfortable and light, the perfect sweatshirt to move around freely. Given the green light by Ecocert Greenlife for its organic cotton, but also by kids.

K490 (kids - 4/6>12/14).
4 colours. p.22

It's all in the details! 3-panel hood with jersey lining, flat drawstrings with a metal finish, with a stitch at the top to ensure the drawstrings hang perfectly symmetrical, earphone access in the neckline...

... lateral seams with decorative flatlock over stitching, piped pockets with plenty of space to personalise your sweatshirt.

Plunge into our 300 g/m² brushed fleece, which is as soft as a cloud. And, what's more, it's made from organic cotton!

Fleece sweatshirts

NO LABEL

Why wear a sweatshirt if it isn't soft, I ask you? Slip on a Kariban Organic sweatshirt... Oh dear, now you won't ever want to take it off! Their secret: they are made from a 3-thread Low Shrinkage Fleece (LSF). The 100% cotton outer layer looks smooth and qualitative. An excellent canvas for screen printers! The intermediate layer, which is made from a continuous 100% polyester filament thread, is the perfect stabiliser. Thanks to the LSF technique, you'll be able to wear your sweatshirt for much longer even if you wash it over and over again. The inner cotton/polyester layer in brushed fleece is super-soft and comfortable to wear.

Models featured:

K484 (men - S>3XL) / K483 (ladies - XS>XXL).
